ZIVA®

THE WAY TO LIVE™

ZIVA® is an elite-performance sports and wellness brand. Distilled to its essence, our brand is driven by the peace of harmony and the joy of living, expressed most powerfully for us through sport, movement, and strength. This essential drive underpins our efforts to improve the physical and mental health of people all around the world.

This philosophy is reflected in our name. The “ZI” in ZIVA comes from the name of the founder of Daoism, an ancient Eastern religion that emphasizes harmony; living in accord with both the nature around you, and with your own nature; and cultivating an attitude of gratitude and happiness by following what it refers to as “The Way.” The “VA” in ZIVA is the second half of the Spanish word “viva,” which means to live fully, to strive with all your heart, and which is an exclamation proclaiming the absolute joy of life and all that it entails.

Our philosophy is embodied in our products. Their premium, progressive design is made to exist in beautiful, artful harmony with high-class gyms and modern homes while their rugged, high-performance functionality invites movement and energetic exertion.

And our philosophy is lived by every team member every day as we work in harmony with one another, joyously striving to bring holistic fitness to the world.

This is ZIVA and our WAY TO LIVE.

ZIVA: PAST AND PRESENT

The ZIVA® Journey began in 2008 in a single, out-of-the-way gym where from our earliest days, we sought to provide athletes and fitness enthusiasts with a transformational platform that could empower their fitness journey.

The things we practiced in the gym forged the values at the core of our company: innovation, inspiration, and precision. Our business has changed radically over the past decade and a half; today we create commercial products tailor-made for the world's most recognizable gym brands and craft gorgeous exercise equipment especially made for the at-home athlete. We still have that out-of-the-way gym, but it's now part of a global corporation where we design, manufacture, market, and ship over 1,000 SKUs in over 80 markets.

And though we have grown, the values we first forged in the gym are still with us, now embodied in our innovative solutions, inspirational designs, and precision manufacturing. Our team of powerful, passionate, and positive people has grown many times over, but still all practice the ZIVA Way to Live.

ZIVA® AND THE COMMITMENT TO SUSTAINABILITY

Since our very inception, the ZIVA vision of wellness has been holistic, compromising not only mental, physical, and spiritual health, but the health of the world around us, as well. We have lived our commitment to sustainability from the first ZIVA showroom – One Wellness – which was designed to be carbon neutral all the way back in 2008. It was the very 1st carbon neutral gym in Asia, and the 2nd in the world. Before many had heard of carbon neutrality, it was a personal point of pride for us and a symbol of our commitment to a better world. We renew that commitment every year, using ever more environmentally friendly materials up and down our supply chain.

Today, 100% of our retail packaging is cardboard made from 100% recycled paper and 100% water-based inks. This makes our packaging completely compostable and biodegradable. Within the next year, we will have phased out all plastic in our packaging, as well, making less waste and a more positive impact.

But there's more to sustainability than just packaging. We're also working to tackle waste and improve efficiency in other ways. We're reconfiguring our manufacturing processes, making them leaner and cleaner. We're installing the infrastructure necessary to achieve total carbon neutrality in our China HQ by 2024, and investing to make our factories and our entire supply chain carbon neutral by 2030.

However, we know that we can't do it alone; to create a greener future, we need the help of those who will inherit it. That's the impetus behind our Gym in a Box, a program that puts sustainably produced ZIVA workout gear into schools where young athletes can share in our commitment to their health and to the health of the great wide world. This commitment to sustainability is a natural extension of the ZIVA Way to Live.

COMMERCIAL

Commercial quality materials and manufacturing with iconic, eye-catching design: that’s been the soul of ZIVA® since the very beginning. The products in our Commercial Line are all built for the most demanding environments: gyms where clients come to be inspired, to train hard, to build better bodies, and better lives. We’ve made the products in this Line attractive, inspirational pieces that are rugged and durable, tough enough that gym-goers can grind out an excruciating set and drop their gear to the floor, while gym owners can feel proud watching them because they have the confidence that their equipment is made to last. From racks to rigs to bells, bumpers, bars, bags, and balls, every piece in the Commercial Line is designed to inspire, to lead users and owners to new heights of excellence and higher paths along The Way.

MATRIX

FREE WEIGHTS

The timeless training tools that have inspired fitness revolutions throughout the ages and throughout the world. Dumbbells, barbells, weight discs, and more form the foundation of strength and hypertrophy training.

At ZIVA, free weights are our bread and butter. For over a decade, we have designed, manufactured, and delivered free weights to fitness facilities of every size and description all over the world. Over the years, we have earned a reputation for commercial quality, precision-calibrated free weights that stand up to the most intense, high-traffic environments. Our free weight products now include various sizes, shapes, and materials to offer something for every aesthetic and budget.

The ZVO Series delivers the pinnacle of performance and quality with second-to-none design and construction made especially for gyms seeking the best of the best.

The SL Series brings an attractive mid-range selection of products that have both style and terrific performance.

And the XP Series offers no-nonsense, always great commercial quality on dumbbells and barbells that make a fantastic foundation to any gym’s free weight section.

ZVO SOLID STEEL URETHANE DUMBBELLS

ZIVA® ZVO Solid Steel Urethane Dumbbells use our classic, iconic dumbbell design and are made as a single, ultra-durable piece of solid steel. Long-lasting urethane-coated heads deliver unparalleled durability; are UV-, corrosion-, and tear-resistant; and provide superior color accuracy when reproducing custom logos. Scratch-proof chrome-finished handles with grip-assisting hill knurling round out this elite design, serving up a package that is an immediate indicator of a facility's continual commitment to the highest quality.

ZVO SOLID STEEL URETHANE BARBELL

ZIVA® ZVO Solid Steel Urethane Barbells take the age-old straight barbell design and crafts them with elite premium quality materials. Each barbell is cast from a single piece of solid steel, providing unsurpassed durability that is made even better by the use of a urethane-coat that features tear, UV, and water resistance. The bars themselves feature a scratch-resistant hard chrome finish and grip-assisting knurling on the sides with a knurl-free center. When set alongside ZVO Solid Steel Urethane Dumbbells, gyms gain a unified, elite look as well as a complete free weight package that is sure to make members proud.

ZVO URETHANE FUNCTIONAL TRIBELL

The innovative and iconic ZIVA® tribell design offers a sleek look while keeping the bells from rolling away. With an ultra-durable, scratch-, tear-, and scuff-resistant urethane coating, the ZVO Urethane Functional Tribell is a best-in-class piece that's both compact and stable, sticking in sweaty hands thanks to grippy urethane knurling, making them the perfect solution for light resistance group classes that serve as a major draw for many gyms.

ZVO URETHANE GRIP DISCS

The ZIVA® ZVO Urethane Grip Disc, made to fit any standard Olympic Bar, is a precision cast premium elite disc that features sleek, eye-catching design for its handles and face, easy ID numbering, beveled edges and three handles for easy pick up from any angle, and an ultra-long-lasting UV-, water-, and tear-resistant urethane coating that stays looking newer for longer. This urethane coat also has the added benefit of giving a bit of bounce, protecting not only the steel plate underneath but the surrounding environment, as well, so a dropped weight disc doesn't necessarily mean a dented floor.

XP URETHANE DUMBBELLS (1-10KG)

ZIVA® XP Urethane Dumbbells are the no-nonsense foundation of resistance training. In increments of 1kg from 1-10kg, they are perfect for fast paced, high intensity workouts and warm-ups. They use our most traditional dumbbell design: scratch-proof, chrome-finished handles with grip-assisting knurling along the center of the handle, and solid steel heads coated in long-lasting UV-, corrosion-, and tear-resistant urethane. This coat is a product of modern material science and gives XP Urethane Dumbbells a slight bit of bounce. That means if a dumbbell is dropped during an intense training session, it may be the difference between a dent in the floor or simply a scuff. All in all, these are a timely take on a timeless training classic.

XP URETHANE BARBELLS

ZIVA® XP Urethane Barbell is an updated yet no-nonsense approach to a pair of timeless classics. These high quality barbells use our most traditional design: scratch-proof, chrome-finished handles with grip-assisting knurling and a knurl-free center, and solid steel heads coated in long-lasting UV-, corrosion-, and tear-resistant urethane with weight IDs prominently displayed on central inserts. This coat is a product of modern material science and gives XP Urethane Barbells a slight bounce if dropped, which may make the difference between a dent in the floor or simply a scuff. All in all, they are a timely take on a timeless training classic.

SL RPU DUMBBELLS (1-10KG)

ZIVA® SL RPU Dumbbells update timeless dumbbell design with a marvel of modern material science: RPU. This coat, which serves as a protective cover on the dumbbells' solid steel heads, combines the bounce of rubber - a crucial quality for protecting the weights, gym floors, and users - and the ultra-high durability of urethane, making them UV-, corrosion-, water-, scratch-, and tear-resistant, as well as longer lasting than any competitor in its class. Scratch-proof, chrome-finished handles with grip-assisting knurling along the center of the handle give excellent usability and large, easy ID weight numbers means they also look as good as they perform. In 1kg increments from 1-10kg, these dumbbells are perfect for fast paced workouts and warm-ups.

STRENGTH

Both timely and timeless, the drive to be stronger, lift more, and reach higher is served with these specialized products chosen specifically to cater to the growing population of strength-focused users.

Our Strength offerings' deliver heavy-duty commercial quality products designed for heavy loads and intense use. ZIVA® Strength equipment is made to take a beating: heavy deadlifts and squats, drops from Olympic heights for Olympic lifters, and bar-bending, PR-smashing loads.

The ZVO Series delivers the pinnacle of performance and quality with second-to-none design and construction made especially for gyms seeking the best of the best.

The SL Series brings an attractive mid-range selection of products that have both style and terrific performance.

And the XP Series offers no-nonsense, always great commercial quality alongside its no-frills XP2 sibling to make a fantastic foundation to any gym's strength training section.

Today, these are essential pieces for any gym hoping to attract dedicated members who will be evangelists and not just users. Strength includes best-in-class plates and barbells; tough, rugged platforms specially designed to absorb drops and protect equipment and surroundings; and accessories that help lifters achieve new highs of performance.

XP POWER RACK WITH STORAGE

The ZIVA® XP Power Rack with Storage is a heavy-duty, no-nonsense training solution that empowers powerful, fast workouts thanks to its built-in storage. Made with scratch-, rust-, and corrosion-resistant powder coated thick steel tubing with laser-cut holes and numbering, a steel tube pull-up bar, and 8x stainless steel storage posts, this Power Rack serves as the most durable, safest and stablest arena for heavy-lifting, and can be customized to create a totally tailored training platform with ZIVA XP Rig Attachments. This unique design lets gym owners increase storage and add training tools to craft a gym centerpiece that does everything they need it to do.

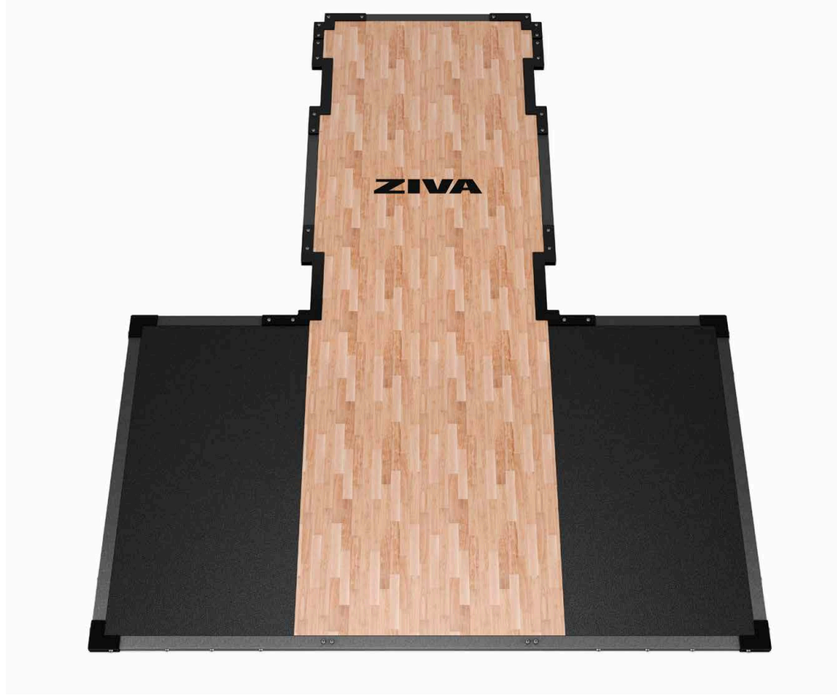

Order Code	Item Description
ZXP-RKFL-7208-CCCC	XP Power Rack with Storage

Description		XP Power Rack with Storage
Specifications		Laser-cut holes (50mm spacing) and numbering system, hard-wearing powder-coated finish 3mm thick steel 75 x 75mm frame, 24mm zinc-coated hardware, eight stainless steel bumper plate storage posts, one pair of J-Cups, additional holes at base for band or accessories attachment, must be bolted to the floor, two inside safety spotter arms (UMHW plastic protection coating) and single pull-up bar & cross beam
Color Options		Charcoal roof / Charcoal frame
Dimensions		187cm x 201cm x 237cm - 224kg
Warranty		Limited 10 year warranty on frames and welding; 1 year on plastic parts

XP POWER RACK WOODEN LIFTING PLATFORM

The ZIVA® XP Power Rack Wooden Lifting Platform is the ultimate powerlifting platform. Made with notches perfectly placed to fit the ZIVA® XP Power Rack, the Platform's extended wooden center gives athletes a super-steady arena on which to perform deadlifts, squats, or bench press, while the shock absorbent rubber tiles on either side are made to handle the heavy weights for which deadlifts are famous. The entire structure is bound tightly together in a steel frame with precision bent gussets, and the entire structure can be easily bolted together and requires no bolting down.

Order Code	Item Description
ZXP-PRCR-8018 -BKGY	XP Power Rack Wooden Lifting Platform 50mm

Description		XP Power Rack Wooden Lifting Platform
Specifications		Steel frame, laser-cut and precision bent gussets, bolt together design, rubber tiles, wood center and does not need to be bolted to the ground
Color Options		Black / Wood
Dimensions		251cm x 301cm
Warranty		Limited 1 year

XP HALF RACK WITH STORAGE

The XP Half Rack with Storage is the ultimate embodiment of strength packed in a small size. This Rack features 8x storage pegs for weight discs, pull-up bars with multiple grips, and comes with sturdy PVC J-cups and safety arms with a protective PVC top layer. Built from incredibly tough steel plate and tubing with a scratch- and rust-resistant black powder coat, its entire frame features laser cut holes where a variety of XP Rig Attachments and other ZIVA Accessories can attach to make this space-saving rig a total body workout hub.

Order Code	Item Description
ZXP-RKHF-1831-CCCC	XP Half Rack with Storage

Description	XP Half Rack with Storage
Specifications	Laser-cut holes (50mm spacing) and numbering system, hard-wearing powder-coated finish 3mm thick steel 75 x 75mm frame, 24mm zinc-coated hardware, eight stainelss steel bumper plate storage posts, one pair of J-Cups, additional holes at base for band or accessories attachment, should be bolted to the floor, two safety spotter arms (CPU plastic protection coating) and multi-grip pull-up bar & cross beam

Warranty	Limited 10 year warranty on frames and welding; 1 year on plastic parts

XP HALF RACK WOODEN LIFTING PLATFORM

The XP Half Rack Wooden Lifting Platform builds on the XP Half Rack with Storage to make a specialty squat and deadlift platform that maintains a smaller than normal footprint. Even with its smaller size, the Platform's wooden center provides a super-steady arena and its shock absorbent rubber tiles on either side handle the heavy weights that deadlifts and Olympic lifting are famous for. Everything is bound tightly together in a steel frame with precision bent gussets and notches perfectly placed to fit the XP Half Rack with Storage, and the entire structure can be easily bolted together and requires no bolting down.

Compatible only with ZXP-RKHF-1831
(XP Half Rack with Storage)

XP SQUAT RACK

Our XP Squat Half Rack with tough 60mm laser cut steel frame and wide, stable base delivers much of the functionality of a wall- or floor-mounted rig without requiring any additional installation and taking up much less space. Users can push themselves to new limits on squat, bench press, overhead press, and more in this Rack without worrying what will happen if they have to do a rough re-rack; it is made to withstand the rigors of elite training day in, and day out. And the adjoining pull-up bar makes supersetting with pull-ups as easy as users raising their hands!

ZVO URETHANE COMPETITION COLORED BUMPER DISCS

ZIVA® ZVO Urethane Competition Colored Bumper Discs are the toughest, most well-built, most thoughtfully designed competition bumper plates in the world. Precision cast in vibrant IWF-standard colors, these bumper discs feature hard chrome-plated hubs and an ultra-long-lasting urethane coat that holds color for longer than anything else in its class. Built to withstand the intensity of Olympic competition and repeated drops from Olympic heights, their competition colors make them immediately recognizable while their beveled edges make for fast and easy loading and unloading from the bar.

SL RUBBER COMPETITION COLORED TRAINING BUMPER DISCS

The ZIVA® SL Rubber Competition Colored Training Bumper Disc is made with premium rubber to absorb the shock of Olympic competition while providing floor protection and superior performance. Their hard-wearing, shock absorbent rubber coats make them perfect for increasingly popular Olympic lifts because even when dropped from an overhead position, they resist cracks and deformation. These premium weight discs are crafted with beveled edges for easy pick up and come with a large scratch- and rust-resistant chrome-plated internal hub that allows for smoother loading and unloading as well as rotation on the bar. In vibrant standard IWF competition colors, these discs are as close to competition day as you can get.

XP2 RUBBER BLACK BUMPER DISC

ZIVA® XP2 Eco Rubber Black Bumper Discs are no-frills Olympic training discs. They feature impact absorbing, tough rubber that provides great protection for floors and slightly deadens noise. Their stark white numbering stands out crystal clear against the black backdrop of their body, allowing quick ID, and their beveled edges make them easy to pick up, load, and unload. A wide chrome-coated central hub allows effortless sliding on and off the bar and smooth rotation throughout every lift.

SAFETY SQUAT BAR

The ZIVA® Safety Squat Bar is a terrific tool for beginners whose back muscles may not be developed enough for traditional squats, and is equally helpful for seasoned lifters with shoulder mobility issues. Wherever users may be in their fitness journey, such a tool is a must-have. This heavy-duty steel bar with rust- and scratch-resistant chrome finish delivers both comfort and safety. Foam pads wrapped in synthetic leather cushion users' neck and shoulders while rubber-coated handles come out front giving better balance and ensuring safe squatting posture.

STORAGE

Storage solutions that serve double duty as organizational hubs to safely, securely store all manner of pieces, and as showcases on which to display ZIVA®'s terrific designs and artful equipment.

All of our storage solutions are crafted from unbreakable, unshakable steel and PVC, and come with a black powder coat that is corrosion and scratch-resistant so they stay looking attractive and new for years, even in the highest traffic environments. We offer a range of designs to meet the needs of all kinds of aesthetics.

Our EX Series offers our sleekest, most modern designs and materials, and the ST and ST2 Series deliver a unique and unmistakable curved rack, while the XP Series brings no-nonsense dumbbell storage and highly versatile, highly flexible multi-functional storage racks. But all ZIVA® storage options speak the same design language as the rest of our equipment, leading to a unified look and feel that lends their surroundings an inspiring air.

EX-5 PAIR HORIZONTAL DUMBBELL RACK 2.0

The ZIVA EX 5-Pair Horizontal Dumbbell Rack 2.0 is a best-in-class storage solution that keeps gyms uncluttered and pristine, and doubles as a beautiful display rack to show off beautiful round-head dumbbells. Glass-filled grey nylon saddles sit atop grey powder-coated steel tubes and serve as protective cradles for dumbbells. The tubes are held aloft by welded steel plate, creating a minimalist profile that is the perfect marriage of form and function. The undeniably premium look of this Rack can be customized by swapping out the grey panels, giving gyms the ability to define their own standards for beautiful organization.

ST 20-PAIR 1-10KG STUDIO DUMBBELL RACK

The ZIVA® ST 20-Pair 1-10KG Studio Dumbbell Rack stores an entire class's worth of dumbbells. It can fit every size and variation of smaller dumbbell on its eye-catching curves, giving its surroundings a modern, attractive look and feel. The Rack features a black powder coat that is rust- and scratch-resistant; floor-protecting footpads; and PU-cushioned saddles. It is built to be a long-lasting, beautiful display piece with the organizational ability to keep its surroundings beautiful, too.

Warranty		Limited 10 year warranty on frames and welding, 1 year on plastic parts

RIGS

The greatest gyms help clients enjoy intense, heavy workouts in less time with rigs and storage that use great design and great construction to deliver safety and stability while keeping everything they need close at hand.

Our collection of rigs includes much, much more than simple squat racks and shelves. These are pieces that integrate storage with stretching stations, suspension training hubs, and more in aesthetic packages that look perfect alongside other ZIVA® gear. A prime example of this design philosophy in action are the XP Freestanding Space Saving Racks and the XP2 Floor-Mounted Functional Rack.

Both integrate storage alongside a lifting rack. Both offer a plethora of options for expandability and customization. Both can be turned into focal points of a fitness facility, hubs of training and storage that serve more functions than can be listed here.

These, and all other rigs in our catalog, let gyms fit more equipment and functionality into tighter spaces for maximum efficiency and floorspace flexibility.

XP 14' FREESTANDING SPACE SAVING RIG

The ZIVA® XP 14' Freestanding Space Saving Rig is a multi-person training hub with integrated storage that helps maximize efficient use of space. The Space Saver Rig features 2x half racks with 2x pairs of J-Cups, 2x pairs of safety arms, 2x pairs of dual-height flying pull-up bars plus one long bar in the middle, 8x chromed storage posts, 3x storage shelves, and near-infinite customization. The Rig's precision laser-cut holes are specially designed for the addition of XP Rig Attachments for expanded storage and training options to perfectly meet any gym's unique needs.

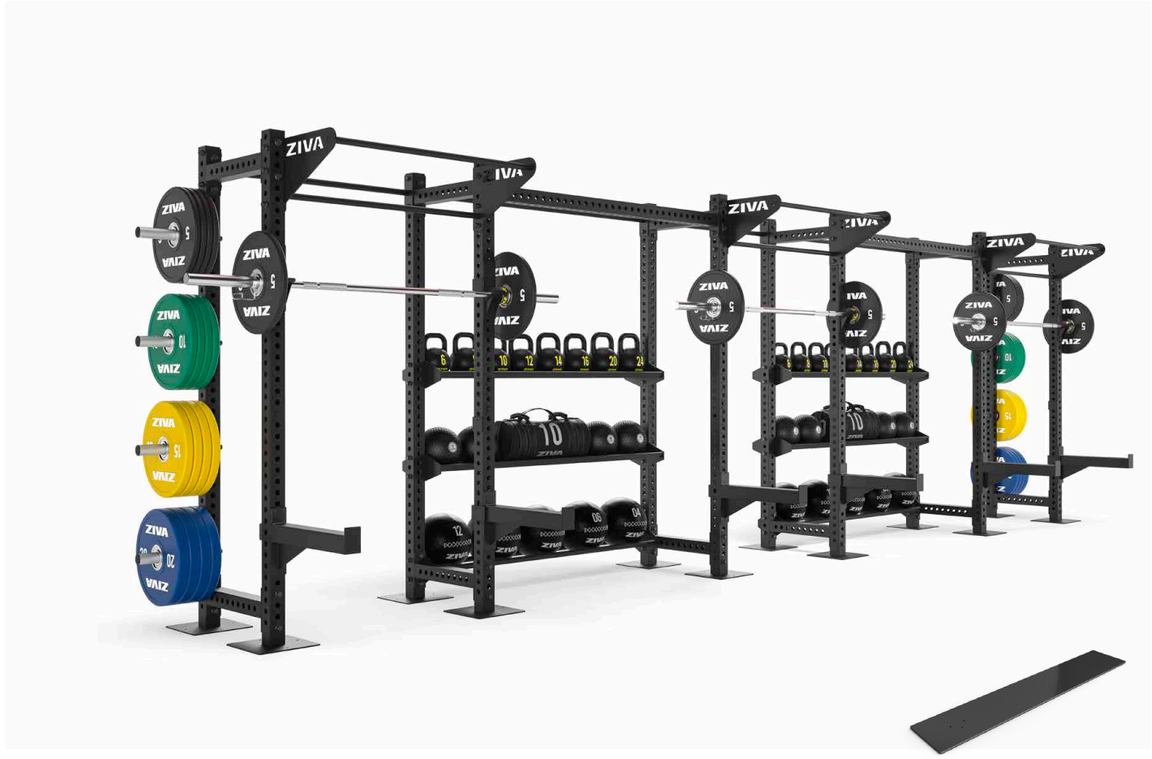

Order Code	Item Description

XP SELF-SUPPORTED MODULAR RIGS

ZIVA® XP Self-Supported Modular Rigs are both expandable and customizable. Crafted from thick steel tubing with a scratch-, corrosion-, and rust-resistant powder coat, each section bolts into the floor with zinc-coated hardware and includes dual-height flying pull-up bars and a pair of J-Cups, and can be attached or detached piece-by-piece depending on a space's overall layout and design. The Rigs' laser-cut holes are made to fit all XP Rig Attachments so the structure can be customized for tailor-made storage and training hubs that perfectly meet a facility's unique needs. The rack can also be combined with Rigs Safety Plates.

XP SPACE SAVING WALL-MOUNTED RIGS

XP Space Saving Wall-Mounted Rigs are expandable and customizable with a slimmer profile than their larger sibling. These Rigs come with zinc-coated hardware to bolt directly into walls to help further maximize efficient use of space. Crafted from thick steel tubing with a scratch-, corrosion-, and rust-resistant black powder coat, each section includes dual-height flying pull-up bars and a pair of J-Cups, and can be attached or detached piece-by-piece depending on a space's overall layout and design. The Rigs' laser-cut holes are made to fit all XP Rig Attachments so gym owners can create tailor-made storage and training hubs made to match their unique needs.

XP2 FLOOR-MOUNTED FUNCTIONAL RIG

The ZIVA® XP2 Floor-Mounted Functional Rig takes the traditional squat bay used for heavy barbell movements and combines it with storage and customizability. Crafted using commercial-grade thick steel tube and plate, the storage portion of this rig includes 4x shelves made to fit dumbbells, kettlebells, and functional training equipment, and 1x shelf specially made for large wall or core fit balls. The squat bay, built with the same ultra-durable commercial-grade materials, comes with a pair of J-Cups and safety arms, and can be added onto with the entire range of XP2 Accessories for additional storage and/or functional fitness pieces. Pull-up bars span the entire structure and an included punching bag and suspension point further make the XP2 Floor-Mounted Functional Rig a gym centerpiece designed to meet a variety of needs.

FUNCTIONAL

Beautifully built functional fitness equipment designed to inspire. Balls, bags, boxes, bars, and every piece of essential equipment for the modern functionally focused premium fitness facility.

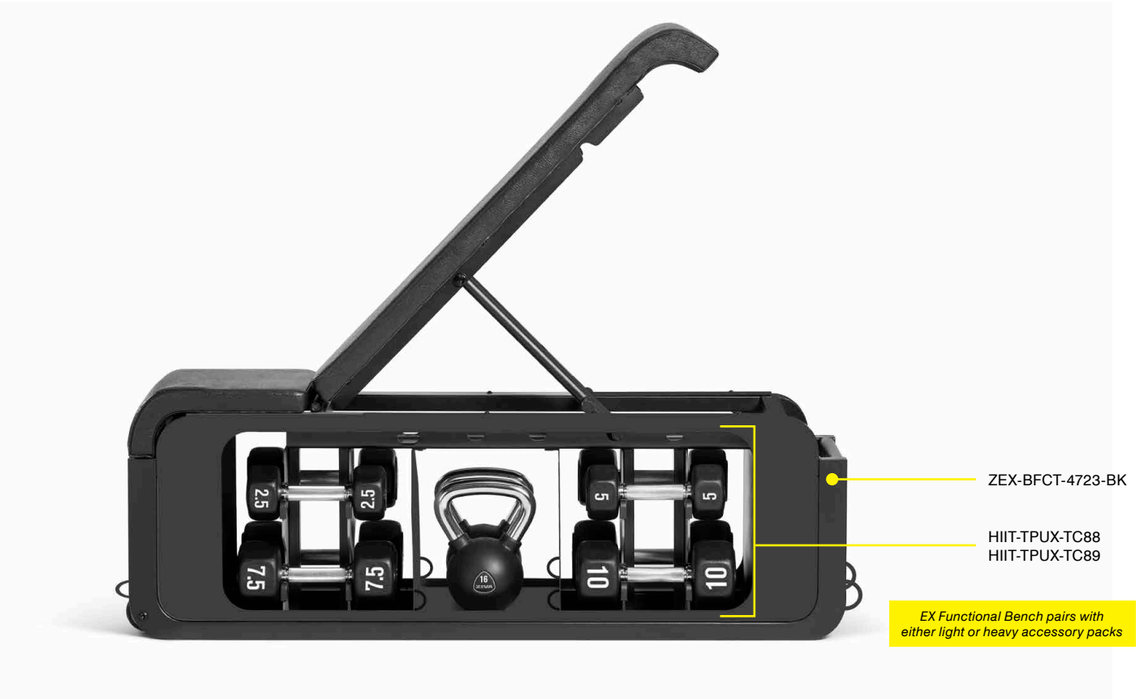

Our functional fitness equipment has always looked great, but now with a fully unified aesthetic language speaking across every piece, this equipment is the perfect fusion of form and function. ZIVA® has been crafting functional fitness pieces since functional fitness was a concept, and our experience has helped us refine our pieces and our process so that our curent offerings are more usable and longer lasting than any others available.

This focus on perfect performance is matched with great looking design that isn't limited to the workout equipment; it's been equally applied to all our functional fitness storage solutions, as well. This is crystal clearly demonstrated with our Storage Trees: sleek, slim profiles clad in black with rugged, ultra-long-lasting steel tube shelving that not only organizes but displays these aesthetically advanced pieces of equipment, maximizing usable floorspace while cutting clutter and beautifying the overall gym environment.

ZVO SLAM BALL

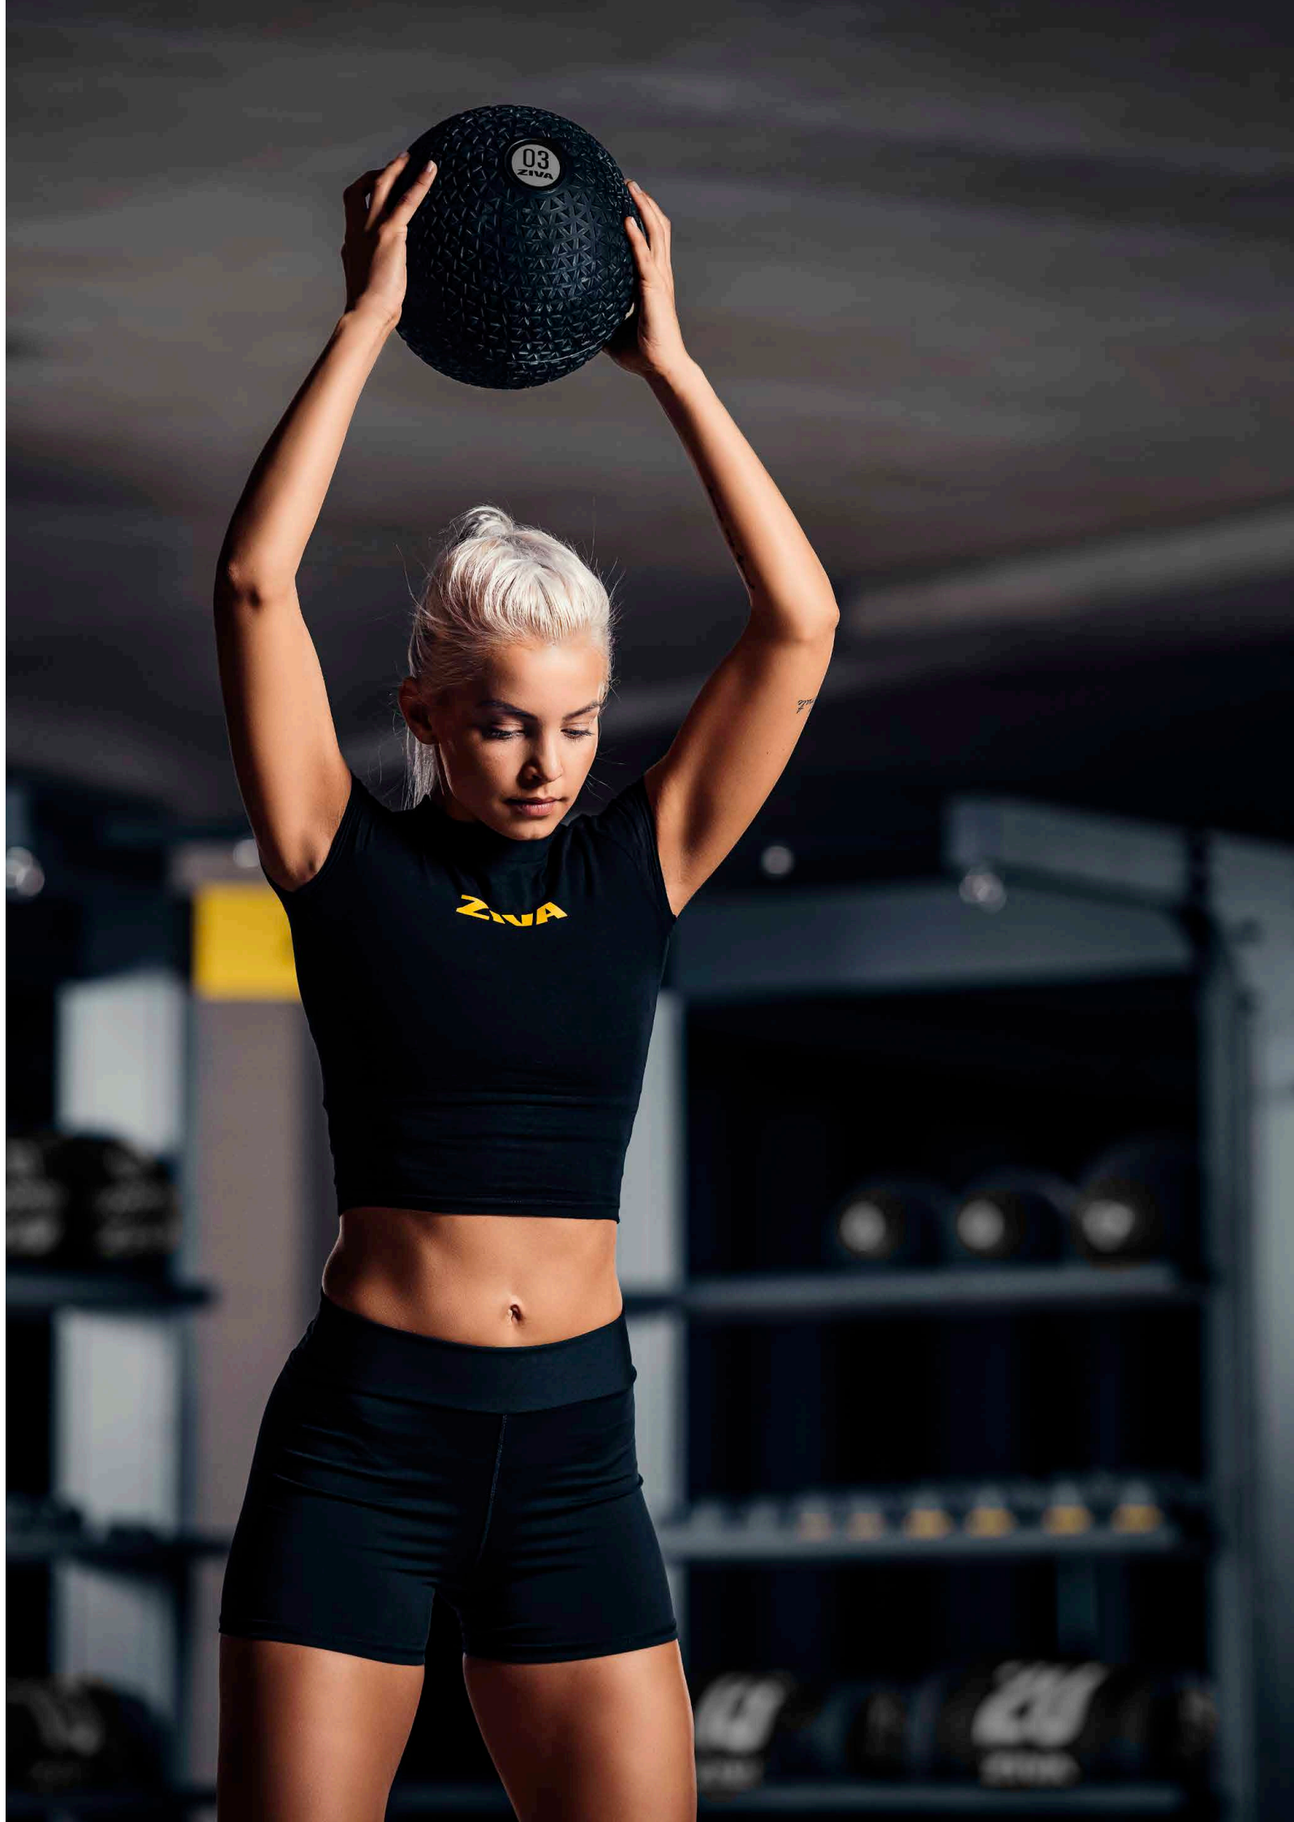

Full-body strength and endurance; intense, explosive cardio; and challenging rotational core exercises combine in one durable, elite-level tool guaranteed to push performance to its absolute limits. The ZVO Slam Ball features a weighted, sand-filled center wrapped in a tough PVC shell with gripping tire tread skin, and is made to be thrown with abandon over and over again. Overhead slams, woodchoppers, Russian twists, and more unique full-body exercises test the limits of users' core strength and endurance while building shoulder, chest, arm, and leg muscle in a holistic fashion that includes often neglected supporting and stabilizer muscles.

SIGNATURE STEEL COMPETITION KETTLEBELLS BY STEVE COTTER

The ZIVA® Signature Steel Competition Kettlebells by Steve Cotter are the pinnacle of quality and design for this foundational functional fitness tool. Created with the expert input of kettlebell pioneer Steve Cotter, these kettlebells are made to be absolutely unbreakable. They feature a crack-, corrosion-, and scratch-resistant black powder coating and vibrant yellow, easy ID numbering, and come with a full steel handle and bell that elevate them beyond mere exercise equipment to the level of functional sculpture, something with which users will be proud to sculpt their bodies.

EX KETTLEBELL RACK 2.0

The ZIVA® EX Kettlebell Rack 2.0 holds up to 10x kettlebells on its PVC-lined and -edged shelves, making it a storage space that both protects and shows them off. This Rack is built tough with a solid steel, heavy-duty frame crafted from plate steel and steel tubing that have a scratch- and corrosion-resistant black powder-coat finish. Protective foot pads keep floors pristine while handsome chrome hardware allows for bolting in place, but with the Rack's impressive 55kg heft, not including the kettlebells' weight, this is hardly necessary.

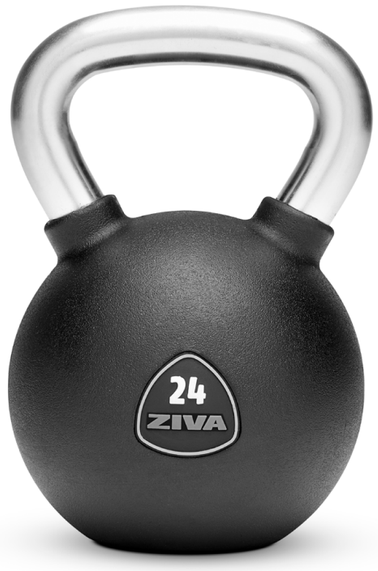

Order Code	Item Description
ZEX-KB05-7316	EX Kettlebell Rack 2.0

SL VIRGIN RUBBER KETTLEBELLS

The ZIVA® SL Virgin Rubber Kettlebells use long-lasting wear-, water-, and corrosion-resistant virgin rubber coating that falls more quietly, with more bounce and less impact than its counterparts, so it won't damage surroundings even during the most intense HIIT workouts. Its ultra-durable chrome grip is naturally more protected against dings and scratches than cast iron or plastic and serves a bold, iconic style that makes them gym centerpieces worthy of display.

Dimensions	111cm x 81.5cm x 66.5cm - 50kg
Warranty	Limited 10 year warranty on frames and welding, 1 year on plastic parts

XP MODULAR STORAGE RACK

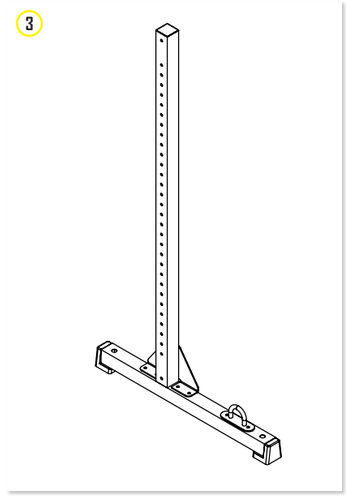

The XP Modular Storage Rack System is the gold standard for storage. Built from steel tubing and thick plate steel, it holds anything and everything. From plates to dumbbells, kettlebells, bags, and balls of every size, this Storage Rack System keeps all manner of gym equipment on hand and perfectly organized. Even usually cumbersome balls are kept perfectly in place thanks to its specially designed steel tube shelving. But its most amazing feature is its customizability. If your facility has more equipment than a single set of shelving can handle, this modular system is simple and easy to expand, and saves space versus two separate storage solutions.

ZVO GLUTE PLYO BOX

While usable as a regular plyo box, the ZIVA® ZVO Glute Plyo Box is specially designed to emphasize glute and calf activation in a way that's impossible with the average, flat-topped box. The Glute Plyo Box's sloping surface, covered in a high-durability PVC coat, forces users' feet, ankles, and legs into the optimal positions to most accurately target tough to hit body parts so trainers can ensure the best results in the areas that matter most to users.

Order Code	Item Description
ZMT-GLPY-5671	ZVO Glute Plyo Box

Description		ZVO Glute Plyo Box
Specifications		Inner core is made with a PE Foam core and PU foam outer shell. The outside is made from hard-wearing PVC shell with webbing handles
Color Options		Black / Yellow
Dimensions		75 x 75 base with sloping top
Warranty		Limited 1 year warranty

SL SOFT 3-IN-1 PLYO BOX WITH PU FOAM

How do you get high-intensity high jumps with low risk and low impact? The SL Soft 3-in-1 Plyo Box. This Plyo Box offers 3 different intensities. Turn it one way, and it's a tough 51cm. step platform. Turn it another, and it's a high-intensity jump workout tool. Give it one more turn to 75cm. and it's a workout that builds speed, explosivity, and power. Any way you turn it, it's a functional fitness mainstay. And despite its easy-on-joints softness, this Box is built tough with a commercial-grade, high-durability anti-slip PVC skin that easily goes on and off of a PU foam core for easy cleaning.

Order Code	Item Description

STUDIO

Every piece is made to facilitate as wide a range of functional exercises as possible but have been designed with slim profiles and small footprints to allow for maximally efficient use of floorspace.

In this category, we've crafted a collection uniquely tailored to the needs of dynamic boutique gyms and training studios. To meet their needs, we have created storage solutions that stash more equipment in less space while still looking great. We have designed equipment that focuses on functional fitness and other highly sought after workout styles and have built mobility into storage pieces to make it easier to train more clients in less time.

Our commitment to small businesses in the fitness industry is what lies at the heart of the ZIVA® Performance Series. It is exemplified in all this equipment but particularly the Performance PLUS 4-Tier Storage Rack. This easily movable shelving unit is able to pack everything trainers might need to give clients a complete functional fitness workout, and because it can be moved so easily throughout gyms of any size, it allows them to shuttle seamlessly from one area, one exercise, and one client to the next so they can do more, faster, with less effort.

PERFORMANCE RPU HEXAGON DUMBBELL

Dumbbells offer a sleek, eye-catching and longer-lasting alternative to the shabby, steel-grey iron chunks of yesteryear. These dumbbells feature cutting-edge RPU coatings over the dumbbells' heads, giving them a textured feel, a vibrant look, and a scratch- and scuff-resistant, long-lasting life. Their straight handles are fully knurled and come with a rust- and scratch-proof chrome coat. They have a modern aesthetic and no-roll design. In a word, they are a shining example of always reliable, world-class ZIVA quality.

PERFORMANCE COMPETITION KETTLEBELL

The kettlebell is a beautifully simple, full-body strength-building and conditioning tool. ZIVA® Performance Competition Kettlebells take this conventionally unadorned iron ball and add an eye-catching splash of competition color. With rust- and corrosion-resistant paint in pink, blue, yellow, purple, green, orange, and red, its ultra-durable chrome handle helps build grip strength and is less prone to dings and scratches than cast iron or plastic. These iconic, boldly styled kettlebells are gym centerpieces worthy display, and even more worthy of great competition.

PERFORMANCE STUDIO BARBELL SET

The ZIVA Performance Studio Barbell Set includes everything needed for a Body Pump or similar workout. This complete set includes everything necessary to get started: a knurled, studio-size barbell with scratch- and corrosion-resistant chrome coating; precision-weighted RPU covered weight discs with an easy grip handle on either side; and super simple flip and lock clamp collars to guarantee a safe, secure workout. With this set, gyms are on their way to bringing members the sort of in-demand fitness classes that create communities around their brand.

PERFORMANCE STUDIO BARBELL RACK

The Performance Studio Barbell Rack, with its capacity to hold up to 10x complete Studio Barbell sets, is the focal point of Body Pump and other similar group classes. Made from 2mm oval steel tubing and thick steel plate with a corrosion- and scratch-resistant black powder coat, this Rack is a grab-and-go station from which class participants can take everything they need so classes get started fast. All this high-quality equipment speaks with the same design language, as well, giving gyms a wonderful, unified premium aesthetic.

PERFORMANCE CABLE ATTACHMENTS

ZIVA® Performance Cable Attachments feature all the handles and bars necessary to make the absolute most out of a cable weight set up. Specialized bars for rowing and that allow for a wide variety of angles and grips; straight, angled, and bent bars especially made to help target triceps and biceps from several different positions; single- and double-sided rope attachments; and the classic stirrup handle and ankle strap. All bars are made with a scratch- and rust-resistant chrome finish and feature comfortable, long-lasting PU or TPE grips that give them a premium look and feel, while all straps are woven from high durability nylon.

PERFORMANCE CABLE ATTACHMENTS

When the entire Performance Cable Attachment set is sat alongside a cable weight station, the result is a total body resistance workout zone where any muscle group can be built from virtually any angle. A complete set makes the most use of a cable weight system, vastly enhances the usability of available gym space, and can potentially decrease the necessary number of equipment pieces needed for a fully rounded gym.

PERFORMANCE CABLE ATTACHMENT RACK (3 TIER)

The ZIVA® Cable Attachment Rack is the perfect antidote to the seemingly inevitable clutter that builds up around every cable weight set up. Crafted from powder-coated thick plate steel shelves on which many attachments can rest, steel tubing, and J-Cups to cradle all bar attachments, it has space enough to keep every variation of cable attachment stored, displayed, and optimally organized so users can find what they are looking for fast and the gym can stay looking fantastic.

PERFORMANCE CORE-FIT BALL

Our Performance Core-Fit Ball makes core work easy. Added to any workout, it challenges users and increases recruitment of stabilizer muscles and maximizes muscle-building across the entire abdominal wall, easily and efficiently targeting the abs, obliques, and erectors. Designed with a non-slip, easy to grip surface and made with BPA-free PVC, the Performance Core-Fit Ball is tested up to 450kg, so workouts of any kind stay safe no matter how intense.

PERFORMANCE SLED

For the functionally focused gym frequented by sport-specific training clientele, the ZIVA® Performance Sled is a crucial piece of equipment. Built to be ultra-durable, the sled consists of a steel frame and 4x exterior bars – two on each side so it can be pushed back and forth without having to turn it around – and a central loading bar, all with a wear-, rust-, and corrosion-resistant black powder-coating. The sled itself weighs 26kg and the central bar can fit up to 10x bumper plates for an intense full-body workout that develops users' legs, core, arms, shoulders, and explosivity.

Order Code	Item Description
ZFT-PWSD-4016-BK	Performance Sled

Description		Performance Sled
Specifications		Made with steel frame and bars

Storage		Fits up to 10x bumper plates
Dimensions		86cm x 51cm x 91cm - 26kg
Warranty		Limited 5 year warranty on frames and welding, 1 year on plastic parts

PERFORMANCE BODYWEIGHT TRAINER SYSTEM

We have taken this functional fitness mainstay and upgraded its flexibility and versatility. The ZIVA® Performance Body Weight Training System uses a tough forged steel cam buckle that makes adjustments easy; commercial-grade certified steel carabiners with keylock noses for easy attachment and removal; and a reinforced strapping loop with exceptional load-bearing capacity that allows for a huge variety of functional exercises. Our Body Weight Training System can be used like a traditional suspension training system, but utilizes a unique individually anchored handle strap design that also allows for each handle to be anchored separately, allowing for exponentially greater exercise variation and workout design.

Order Code	Item Description
ZFT-APUS-0921-BKGY	Performance Bodyweight Trainer System
ZFT-WASK-6690-BK	Performance Bodyweight Training Wall Anchor Kit

Description		Performance Bodyweight Trainer System

PERFORMANCE PLYO BOX

How do you deliver high-intensity high jumps with low risk and low impact? With the ZIVA® Performance Plyo Box. Our Plyo Box consists of a commercial-grade, high-durability anti-slip PVC skin that easily goes on and off of a PE foam core that athletes can set any of 3 ways for different intensities. Turn it one way, and it's a tough 20" step platform that works the calves, hamstrings, and glutes. Turn it another, and it's a high-intensity jump workout tool that challenges users to leap 24" into the air and land gracefully on its soft surface. Give it one more turn, and it demands users to soar to 30" up for workouts that build speed, explosivity, and power.

Order Code	Item Description
ZFT-TRPY-4014-BKGY	Performance Plyo Box

Description		Performance Plyo Box
Specifications		Made from PE foam inner core, with PVC outer coating
Color Options		Black / Grey / White
Warranty		Limited 1 year warranty

PERFORMANCE WOODEN PLYO BOX

Built to withstand intense HIIT workouts at the high frequency of a commercial gym, the ZIVA® Wooden Plyo Box offers a satisfying, reverberating thud with each jump onto its stable, sturdy landing surface. Crafted from commercial-grade, high-durability composite plywood with a bonded exterior and beveled edges, this no-nonsense functional fitness mainstay offers 3 different intensities depending on which way it's turned. Whether at 50, 60, or 70cm, it delivers workouts that build speed, explosivity, and power with a head turning minimalist aesthetic.

Order Code	Item Description

PERFORMANCE BATTLE ROPE

The ZIVA® Performance Battle Rope delivers both the perfect HIIT tool and a one-stop solution for complete upper body and core building workout. All of our Battle Ropes are built light enough to facilitate an exhaustive cardio workout for athletes, yet with the heft to build strength in shoulders, arms, back, and core. Woven from sturdy nylon with tough rubber handles, the Battle Rope is built to be rugged and durable enough to withstand the constant beating of the busiest studios.
